

# EURO 2021 POOL RULES

## POOL FORMAT & DEADLINES

There are two stages; Group Stage & Knockout Stage. The deadline to enter your group stage picks is June 11th at 3:00pm Eastern Time. The deadline to enter your knockout stage picks is June 26th 12:00pm Eastern Time.

## GROUP STAGE SCORING

Pool participants are required to enter their prediction for the following:

1. Winner of each group
2. Runner-up of each group
3. Four 3rd place qualifying teams

If you correctly predict a team's finish within their group (winner, runner-up or third place) you will get 2 points. If you don't get the team's finish correct, but the team still advances, you will get 1 point. The points earned during the group stage are included in the overall standings.

## KNOCKOUT STAGE SCORING

All group stage points are carried over to the knockout stage. You earn points by correctly predicting the winners of each game. There are 4 rounds and a total of 15 games.

Points per round are as followed:

Round of 16: 4 points/win

Quarterfinals: 8 points/win

Semifinals: 16 points/win

Finals: 32 points/win

## STANDINGS

The pool standings will be updated after the conclusion of each game of the tournament. The standings will be displayed on the website and are also available in a printer friendly version.

## TIE BREAKERS

1st Tie Breaker: Total Score Prediction in Championship Game

The difference between what you predicted to be the total number of goals scored in the final games and the actual number of goals scored (not counting penalty shoot-outs).

Only the difference matters, not whether you go over or under the actual number of goals scored.

2nd Tie Breaker: Total Knockout Stage Wins

The total number of games you predicted correctly over the entire Knockout Stage (aka Bracket Stage, Stage 2)

### PICK CONFIRMATIONS AND DISPUTES

It is your responsibility to make sure your picks are accepted properly by the website. Upon submitting your picks, you will get a detailed on-screen confirmation of your picks. There is also an option (enabled by default) to receive a pick confirmation email. We also recommend that you return to the picksheet at least once after you make your picks to see that your picks are pre-filled on the form. If there is ever a dispute about who you picked, whatever is shown on the website stands.
